

► **PROQUIP HYDRATECH  
WATERPROOF SUIT  
£199**

ProQuip have been designing some sharp waterproof suits for the last couple of years now, and this is probably their best one yet. Rather than sticking to one fabric, they've combined the Silk Touch, Ultralite and Liberty fabrics to produce a more stylish cut. This is a suit that can keep you warm, as well as dry, without making you look like Mr Stay Puft.
